

Birmingham Museums Work Experience

Are you looking to experience working in a museum? Or hoping to get some behind the scenes knowledge? Or maybe you just want to find out about the working world.

Birmingham Museum's Trust is the largest independent charitable trust of museums in the UK and we offer a range of opportunities for work experience and work placements. Please read the below carefully to make sure you are following the right route in your enquiry.

Work Experience

Birmingham Museums Trust offers a number of work experience placements in various departments across our nine sites throughout the year.

Our work experience programme is open to anyone over the age of fifteen who is not currently in employment. Each placement is two weeks long and is a great chance to gain some experience of the sector, develop your skills and knowledge, as well as getting a general awareness of the working world.

Our work experience programme for 2017 has now been filled and we received almost 200 applications. If you are keen to complete work experience with us in 2018 why not sign up to our work experience interest list? Just send an email to:

workexperience@birminghammuseums.org.uk

City Hospital Birmingham Work Experience

We welcome applications for the next academic year – September 2017 to July 2018.

The Trust is keen to promote an early, active interest in careers within the NHS. The Learning Works therefore offers students a work experience scheme at the age of 14 and above.

Pupils have an opportunity to discover what working life is like in the healthcare sector. The work experience programme offers a flexible range of options – from a one-day taster session up to two weeks, and covers all of the working disciplines that the Trust has to offer.

Opportunities for work experience include (among many others):

- Healthcare – working in a ward area
- Administrative & clerical
- Estates – grounds and building maintenance
- Therapists

- Facilities – catering, portering, cleaning and maintenance, driving services
- Marketing & Communications

All work experience candidates will be fully supervised, providing assistance that is appropriate to their age and experience. Needless to say, pupils will never be exposed to anything harmful. However, they will gain a valuable insight into the potential for a wide range of careers within the Trust.

The Learning Works is actively promoting these opportunities to schools career officers across the region. Schools can contact us directly with regards to securing work experience opportunities with the Trust.

For more information about work experience opportunities, please e-mail your enquiry to:

Pharmacy student summer vacation placement scheme

The pharmacy department offers up to 6-9 unpaid placements of 2-3 weeks across the three sites between June and September each year. During the placement the students will have the opportunity to experience the working environment of a hospital pharmacy, shadow pharmacy staff on their daily duties and potentially undertake a project. Each site offers a different specialist experience. Where possible, cross-site arrangements may be made, however, the majority of time will be spent on the base site.

Interested in a Placement?

Placements will be advertised in the autumn for summer 2018, with instructions on how and where to submit your application.

Interviews

Students will be contacted directly to confirm the date, time and place of the interview. If you have not received a call, then your application has been unsuccessful. Unfortunately we will not be able to contact all applicants and will only be contacting shortlisted students.

For further information regarding the placements, please contact Debbie Kemp (Teacher Practitioner): debbie.kemp@heartofengland.nhs.uk
